Weekly Summary Supplement
(27 September - 4 October 1955)

SPECIAL AIR FORCE TRAINING PROGRAM

The second running of the USAF program got under way on schedule on Monday, 3 October, with 13 students. The CIA Office of Security is now in the process of clearing these students for the CIA portion of the course, which will begin on 17 October. Because of the lack of instructors and the heavy demands placed upon those on board, OTR has agreed to supply only one instructor to the next class, tentatively scheduled for January 1956. Thereafter, the program will be managed by the Air Force.
